#### SYLLABUS

## 1. Data about the program of study

1.1	Institution	The Technical University of Cluj-Napoca
1.2	Faculty	Faculty of Building Services Engineering
1.3	Department	Building Services Engineering
1.4	Field of study	Civil Engineering and Building Services
1.5	Cycle of study	Master
1.6	Program of study/Qualification	Building Services for Regenerative Cities / MS Engineer
1.7	Form of education	Full time
1.8	Subject code	5.00

### 2. Data about the subject

2.1	Subject name			nZEB Buildings					
				Assoc.Prof.PhD.Eng. Moga Ligia Mihaela: ligia.moga@ccm.utcluj.ro					
2.2	Course responsible/lecturer		Assoc.Prof.PhD.Eng.Ancuţa Coca Abrudan:						
				ancuta.abrudan@insta.utcluj.ro					
2.3	Teachers in charge of		Assoc.Prof.PhD.Eng.Moga Ligia: ligia.moga@ccm.utcluj.ro						
2.5	seminars			Assoc.Prof.PhD.Eng.Ancuţa Abrudan: ancuta.abrudan@insta.utcluj.ro					
2.4	2.4 Year of study I 2.5 Se		mester	Ι	2.6 Assessment	E	Exam		
2 7 9	Subject category Optional		itegory					DA	
2.7 3			al						DI

#### 3. Estimated total time

3.1 Number of hours per week	2	of which	3.2 Course	1	3.3 Seminar		3.3 Laboratory		3.3 Project	1
3.4 Total hours in the curriculum	28	of which	35	14	3.6 Seminar		3.6 Laboratory		3.6 Project	14
3.7 Individual study:			•							
(a) Manual, lecture materia	al and	notes, bib	liograph	ıy					1	0
(b) Supplementary study in the library, online and in the field							1	0		
(c) Preparation for seminars/laboratory works, homework, reports, portfolios, essays							1	0		
(d) Tutoring							7	7		
(e) Exams and tests							4	4		
(f) Other activities							6	<b>5</b>		
3.8 Total hours of individual study (sum (3.7(a)3.7(f))) 47										
3.9 Total hours per semester (3.4+3.8) 75										
3.10 Number of credit points 3										

# 4. Pre-requisites (where appropriate)

4.1	Curriculum	Knowledge regarding building and HVAC design, Thermotechnics			
4.1	Curriculum	of Constructions, construction materials, bachelor's degree			
4.2	Competence	Thermotechnics and HVAC calculation			

## 5. Requirements (where appropriate)

5.1	For the course	Class attendance is not mandatory, but it will be a plus for the final grade. Photography and filming are prohibited during the course
5.2	For the applications Project	Class attendance is mandatory. Photography and filming are prohibited during tutorials.

## 6. Specific competences

Professional competences	Knowledge regarding energy performance of buildings legislation. Knowledge regarding general criteria for nZEB design. Knowledge for the identification of constructive details for building envelope components Knowledge regarding thermal performance design Knowledge regarding different parts constituting HVAC systems for energy efficient buildings; Knowledge for the identification of building services components
Cross competences	The accumulated knowledge can be used for developing technical reports for the thermal design of nZEBs. The students will be able to get the required technical knowledge to communicate with other stakeholders in the field of nZEBs. The students will be able to demonstrate a creative and enterprising spirit in solving complex problems

## 7. Discipline objectives (as results from the key competences gained)

7.1	General objective	Developing skills for designing high nearly Zero Energy Buildings Synthesizing, explaining and transmitting information for nearly Zero Energy Buildings
7.2	Specific objectives	Acquiring knowledge regarding legislation and design norms nZEBs Skills development in designing nZEBs To know in detail the role of building services components and systems in designing nZEBs. Using the latest scientific and technical achievements (national and international) trends for developing design nZEBs

#### 8. Contents

8.1. Lecture (syllabus)	Number of hours	Teaching methods	Notes
<ol> <li>Overview, objectives, history. Energy efficiency at buildings. Legislation and norms regarding thermal performance of new buildings and thermal rehabilitation process at existing buildings</li> </ol>	2		
2. nZEBs definition. Principles and design criteria.	2	Exposure,	Video- projector
3. Constructive solutions for nZEBs. Types of energy efficient windows.	2	applications	
4. Evaluation methodologies for the energy performance of a building and building services.	2		

5. Use of cogeneration for nZEBs	2				
6. Use of renewable energy for buildings: wind power and	2				
geothermal energy					
7. Use of renewable energy for buildings: solar energy and	2				
heat pumps

- 3. Moga L., Rusu A., Performanța termică a clădirilor din panouri mari prefabricate: îndrumător de calcul, U.T.Press, 2013
- 4. \*\*\* Thermotechnics design norms C107/0...7-2005
- 5. Manualul de Instalatii Instalatii de incalzire, Editura MATRIX ROM, 2010

Software:

1. AutoCAD, Student Version

2. Allplan Inginerie, Student Version

3. Mathcad

Specialized software for the calculation of the equipment specified in the theme

# 9. Bridging course contents with the expectations of the representatives of the community, professional associations and employers in the field

The gained knowledge will be necessary for employees that will work in building design field and building services systems. This satisfies employers' requirements.

#### 10. Evaluation

Activity type	10.1 Assess	ment criteria	10.2 Assessment methods	10.3 Weight in the final grade
10.4 Course	20 theoretic	questions	Written test of 2.0 h - on-site of 30 min online	30%
10.5 Project		<sup>f</sup> written part, and drawings	Project presentation for 40 min	70%
10.6 Minimum stand	dard of performa	ance		
Exam grade E≥5; Pro	oject/paper grad	e A≥5		
E= [0.3 (T) +0.7 (P)]				
The final grade will t	ake into conside	eration the stud	ent's involvement during the sem	nester
Date of filling in:		Title Surnar	ne Name	Signature
16.06.2023	Lecturer	Assoc.Prof.P	hD.Eng. Moga Ligia Mihaela	
	Lecturer	Assoc.Prof.P	hD.Eng. Ancuţa Abrudan	
	Teachers in	Assoc.Prof.P	hD.Eng. Moga Ligia Mihaela	
	charge of application	Assoc.Prof.P	hD.Eng.Ancuţa Abrudan	
Date of approval in Engineering 29.06.2023	the Department	of Building Ser	vices Head of department Assoc.Prof.PhD.Eng. (	Carmen MÂRZA
Date of approval in Services Engineering 29.06.2023		e Faculty of Bu	ilding Dean Assoc.Prof.PhD.Eng. I	Florin DOMNIŢA
